Your Citation Builder report explained:

- Live** This status means there was no existing listing for the business, so we created one which is now live on the directory. You can click the 'Live' icon to view the directory listing in a new tab.
- Updated** This status means there was an existing listing on the directory for the business with incorrect details, so we have successfully updated this listing with the correct data.

Submitted

This status means we have submitted a brand new listing and we're now waiting for the listing to go live. We check for live listings twice: the first check is made two weeks after initial submission and the second check is made four weeks after initial submission. You can also manually update the links yourself if they've gone live.

Pending

This status means that we have found an existing listing with incorrect data. We have contacted the directory and requested that they update it. Currently are waiting for these edits to be approved by the site moderators.

Existing

This status means we have found an existing listing and we're unable to update it because of the site's publishing policies. Alternatively, it can mean that the listing already had the correct NAP information, so we've made no attempt to update it. You can find more information in the notes section.

This icon means that we have added individual notes. For more information, please hover over the icon.

This icon means that you need to follow up with the directory to verify the listing. The instruction on how to do this will be in the notes.

This icon indicates a quick listing, which is a listing that goes live as soon as we have submitted the data.

This icon means that this website does not show photos on the listing.

This icon means that you need to follow up with the directory by phone to verify the listings. Instructions on how to do this will be in the notes.

This icon means that you're able to add in the link to the live listing yourself and update your campaign report.
