Link Building Strategy

During this campaign we created an authority structure to boost the authority of your website. This strategy mimics the path of viral content, starting with your website at the top and boosting authority through the layers. Below is a breakdown of the work done.

Your Website

Links from the layers below boost authority to your website and the URLs provided.

Authority Site Links

We built properties on high authority domains and linked to your website. These are the only links in the structure that are pointed directly to your site.

Authority Site links created

32

Web 2.0 Links

These are supporting links for the articles we created. They point to the Authority sites and never link directly to your URLs.
